

Devantech SRF05 R271-SRF05 \$29.50

Recommended upgrade to the SRF04 sonar range finder. New features include an LED status indicator that blinks when the sonar fires as well as a single-wire mode of operation. The sensing range is out to 4 m (13.12 ft). In almost all respects, this is a drop-in equivalent of the SRF04.

Please refer to the Technical Documentation page for more information on the operation of this ranger.

Specifications	
Voltage	5 V
Current	4 mA typically
Frequency	40 kHz
Minimum Range	3 cm
Maximum Range	4 m
Input Trigger	10 μ s minimum, TTL level pulse
Echo Pulse	Positive TTL level signal, proportional to range
Size	43 x 20 x 17 mm
Connection Type	Digital
